A MESSAGE FROM LUCID

In 2026 the Gulf's shipping map changed. Ships discharge on the east coast, cargo moves overland, rates shift week to week. The businesses that keep moving are the ones with the right partner beside them.

At Lucid we do not just book cargo. We read the market, compare every realistic route and tell you honestly what will work, before a delay becomes your problem. When a vessel is rerouted, we already have a plan B. When a site deadline is at risk, we find the faster route. When costs rise, we look for the smarter one.

From our headquarters in Dubai Investment Park 1 and our 55,000 sq ft 3PL facility, we support traders, contractors and project owners across the UAE, from single containers to complete project flows for Dubai's next generation developments. Share your next enquiry, and see what a proactive partner looks like.

LUCID SHIPPING IN NUMBERS

A Dubai partner built for real-world logistics.

THIRD PARTY LOGISTICS

55,000 sq ft

End to end 3PL facility in Dubai Investment Park: warehousing, picking, packing, value added services and distribution.

LOCATION

DIP 1, at the centre of Dubai's growth corridor

Minutes from Jebel Ali Port, JAFZA, DWC airport, Expo City and Dubai South.

OUR PROMISE

Rates that hold. One coordinator. Updates first.

TODAY'S CHALLENGES, OUR ANSWERS

The market changed. We keep cargo moving.

	THE CHALLENGE		THE LUCID SOLUTION
01	**Hormuz disruption & port diversions**	→	Discharge at Khor Fakkan or Fujairah, then bonded trucking or rail into Jebel Ali, JAFZA, DIP or your site, managed end to end.
02	**Rates and surcharges moving weekly**	→	Written all-in quotations with clear validity. War risk, congestion and landbridge charges flagged up front, never after arrival.
03	**Space & equipment shortages**	→	Carrier-neutral booking across many lines, alternative gateways including Sohar, and sea-air through DXB and DWC when space is tight.
04	**Longer, less predictable lead times**	→	Buffer stock held at our 55,000 sq ft DIP facility and released to your schedule, so customers are not waiting on vessels.
05	**Urgent project deadlines**	→	Air freight, sea-air and staged site deliveries, planned backwards from your handover date.
06	**Complex & controlled cargo**	→	DG, out of gauge, defence and humanitarian cargo, with approvals and carrier acceptance confirmed before booking.

TRY US ON YOUR NEXT SHIPMENT

LUCID LOGISTICS SERVICES L.L.C

Independent. Dubai based. Built for projects.

Lucid Logistics Services L.L.C, trading as Lucid Shipping, is a freight forwarding and logistics company headquartered in Dubai Investment Park 1. We coordinate ocean, air, road and customs operations into and out of the UAE, backed by a vetted network of partner agents at origin and a 55,000 sq ft third party logistics facility at home.

Our work spans single containers for traders, high volume project flows for Dubai's next generation districts, and specialist cargo that needs approvals, permits or careful handling. We are not tied to one carrier or alliance, so each shipment moves on the service that best fits its cost, timing and cargo.

Carrier-neutral

Every shipment routed on the best fit, not one line's network

End to end

Origin pickup to final delivery, freight to 3PL, under one file

Written

All-in quotations with clear inclusions, exclusions and validity

Rates that hold

What we quote is what you pay. Third party costs are flagged up front.

One coordinator

The same person owns your file from booking to delivery. No ticket queues.

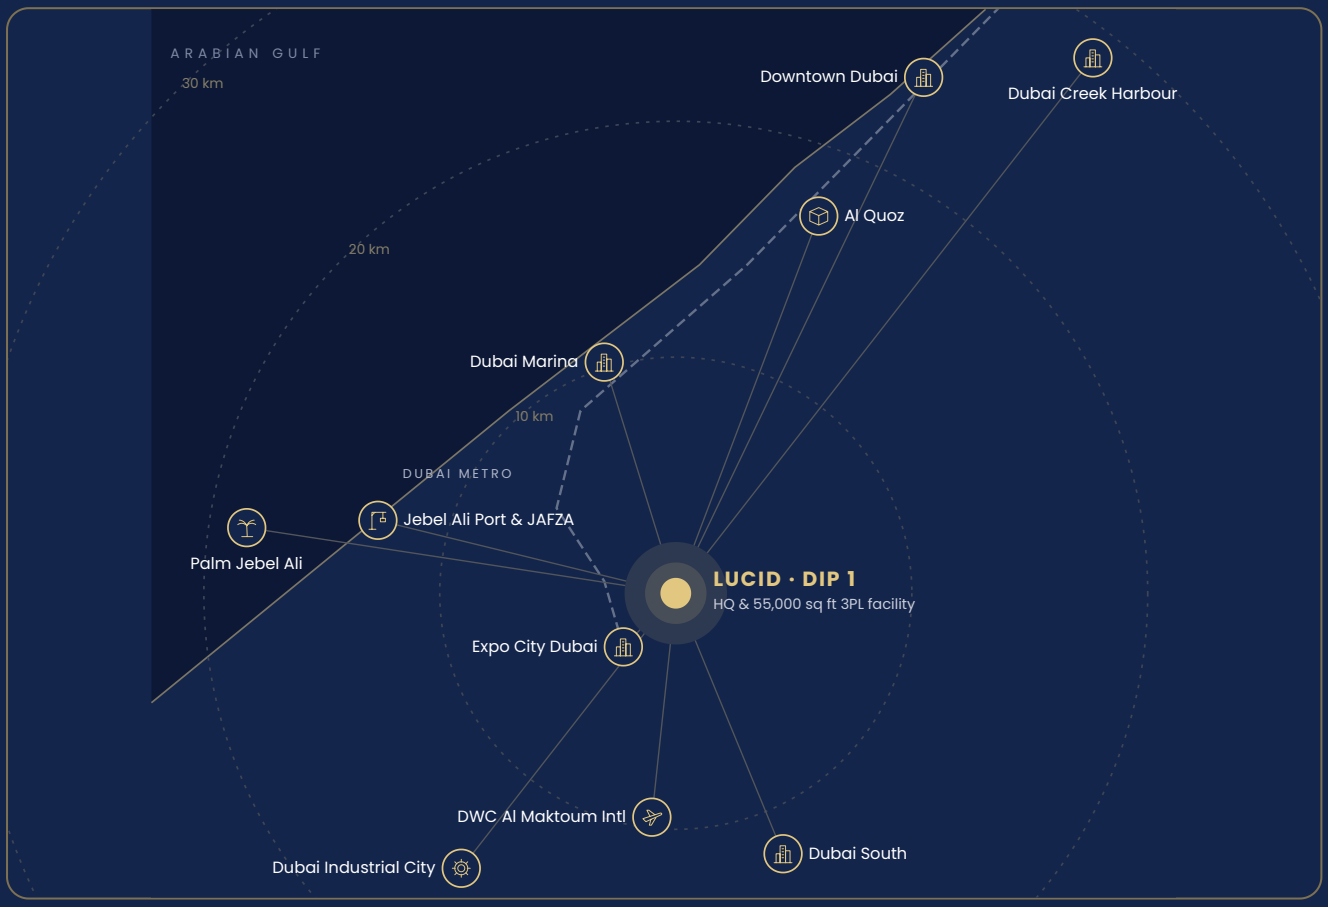

Updates first

You hear about vessel changes and delays from us before you need to ask.

DUBAI INVESTMENT PARK 1

From DIP 1, every major project in the city is within reach.

Expo City & Dubai South
Materials for the new districts

DWC Airport
Imports for the next generation airport

Palm Jebel Ali
Construction and fit-out supply

Metro & mega projects
Long, heavy cargo on programme

Jebel Ali Port & JAFZA
A short drive from our facility

Dubai Industrial City
Factory setups and machinery

DIP 1 · 3PL hub
55,000 sq ft staging for every site

Downtown & Creek Harbour
Hospitality and fit-out deliveries

NEXT GENERATION DUBAI

Dubai South, Expo City & Palm Jebel Ali.

Dubai South & Expo City

Dubai's growth is moving south, and so is our work. These districts are rising all at once, with homes, logistics zones, offices and public spaces, which means a steady overlapping flow of materials and fit-out goods. Our DIP 1 base sits right beside them.

Palm Jebel Ali

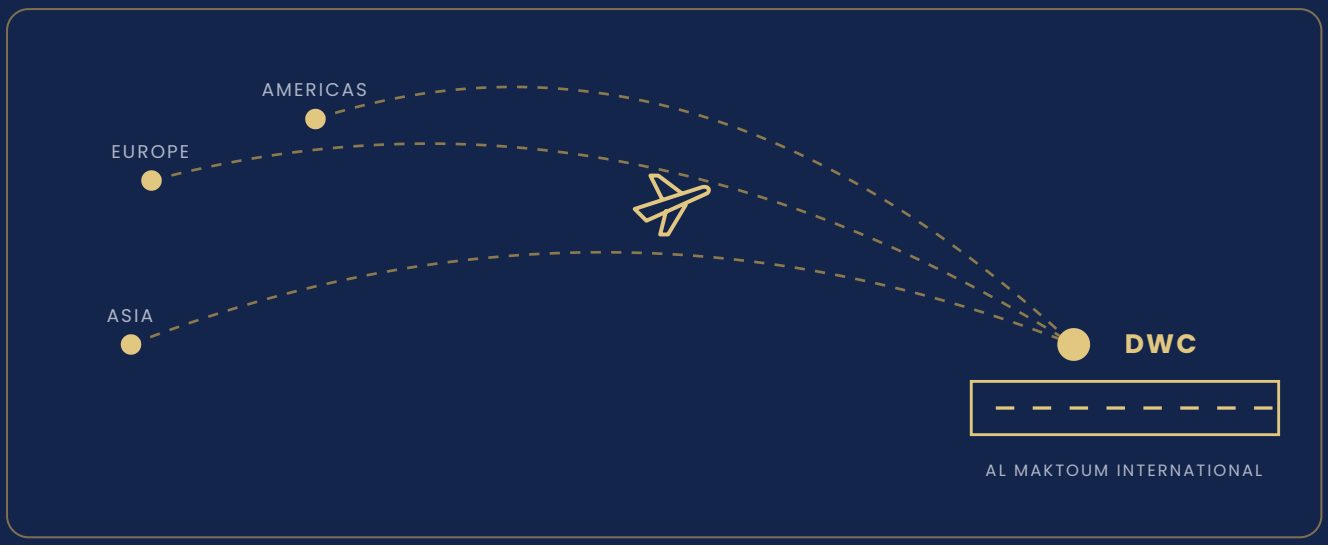

One of the largest waterfront developments in the region. We support projects here with the inbound flow of construction materials, finishes and fit-out goods, with access windows and site rules coordinated in advance.

01 **Multi-supplier consolidation**
Many vendors and origins, one controlled inbound plan.

02 **Staged site delivery**
Drops matched to the construction schedule.

03 **Gate passes & access**
Delivery slots, permits and site access arranged.

04 **Short last mile**
Minutes from our DIP 1 facility to the southern districts.

DUBAI WORLD CENTRAL

DWC, Al Maktoum International Airport.

Dubai World Central is set to become one of the largest airports in the world. Lucid is involved in importing materials used to construct this next generation airport, handling inbound shipments from overseas manufacturers through to delivery at the project.

Airport projects run on strict security, access and scheduling rules. We plan every delivery around them, from vehicle and driver details to site windows, so materials arrive cleared, documented and ready to install.

Import

Sourcing countries to the UAE, by sea and air

Clear

Customs and documentation handled in house

Deliver

Security compliant delivery to the airport site

RAIL & MEGA PROJECTS

Metro & mega projects.

Rail, transport and large scale infrastructure bring cargo that is long, heavy, high value and tied to tight milestones. We have handled it.

01 **Metro project cargo**
Components, equipment and materials for metro works, moved to programme.

02 **Out of gauge & heavy lift**
Flat racks, open tops and breakbulk, with lashing and lifting plans.

03 **Route & permit planning**
Abnormal load permits, escorts and night moves where required.

04 **Milestone reporting**
Clear status against the project schedule, not just a tracking link.

05 **Laydown & storage**
Hold and stage cargo at our DIP facility until the site calls it forward.

06 **Contractor coordination**
One point of contact for contractors, subcontractors and suppliers.

DUBAI INVESTMENT PARK

55,000 sq ft

Not just a warehouse. Your complete supply chain.

Our 55,000 sq ft facility in Dubai Investment Park is the hub of a full third party logistics operation. All-in handling of logistics and supply chain is our expertise: we receive, store, pick, pack, add value and distribute, so our customers run their business while we run the flow of goods behind it.

Because freight, customs, warehousing and distribution sit with one expert provider, there are no handovers between separate companies, no gaps in responsibility and one clear view of your stock and shipments from origin to final delivery.

01 **Inbound & receiving**
Container devanning, tally, inspection and photo reports.

02 **Warehousing & inventory**
Racked, palletised and open yard storage with stock reporting.

03 **Picking & packing**
Order and project picking, packed to your specifications.

04 **Value added services**
Labelling, kitting, repacking, palletising and quality checks.

05 **Distribution**
Scheduled deliveries across the UAE and onward to the GCC.

06 **Supply chain management**
Supplier coordination, order visibility and end to end control.

SECTOR EXPERTISE

Deep experience across every sector.

Different industries, different rules. We know the documents, the carriers, the site conditions and the deadlines that matter in each one.

Construction & building materials

Tiles, steel, doors, hardware, facades and finishes.

Real estate & mega projects

Master developments, infrastructure and metro works.

Hospitality & leisure

Hotels, resorts, F&B, parks and entertainment.

Industrial & manufacturing

Factory setups, heavy machinery and spares.

Energy, oil & gas

Utilities, power, gases and chemical cargo.

Retail, furniture & consumer

Furniture, apparel, electronics and FMCG.

Defence & government

Controlled cargo with approvals and permits.

Humanitarian & NGOs

UN agency shipments and relief goods.

Automotive & marine

Vehicles, Ro-Ro, yachts and ship spares.

ONE STANDARD, EVERY SECTOR

Rates that hold. One coordinator. Updates before you ask.

TURNKEY PROJECTS

Parks & leisure.

We have handled turnkey projects for parks, where a single project can arrive as a large volume of containers from the manufacturer. Rides, play structures, soft play, flooring, electricals and theming all need to land in the right order for installation teams.

- HIGH CONTAINER VOLUMES
- MULTI BL PLANNING
- PACKING LIST CONTROL
- DUTY PLANNING
- PHASED DELIVERY TO VENUE

HOSPITALITY

Hotels, resorts & F&B.

Hospitality projects bring furniture, fixtures and equipment from many suppliers, all needed before an opening date that cannot move. We consolidate FF&E, kitchen equipment, lighting and décor, hold it at our facility and deliver room by room or floor by floor.

- FF&E
- KITCHEN EQUIPMENT
- LIGHTING & DÉCOR
- FLOOR BY FLOOR DELIVERY
- OPENING DEADLINES

FACTORIES & MACHINERY

Factories, machinery & furniture.

When a client builds a factory, the whole plant arrives by sea. We have moved heavy machinery for complete factory setups, including a trailer manufacturing factory and a furniture factory.

01 **Trailer factory setup**
Heavy fabrication machinery, presses, welding lines and tooling.

02 **Furniture factory setup**
Woodworking, CNC, edge banding, finishing and spray lines.

03 **Heavy & OOG machinery**
Open top, flat rack and breakbulk with lashing and lifting plans.

04 **Used machinery imports**
CNC machines and plant from Europe and beyond, dismantled to relocated.

05 **Furniture goods imports**
Regular FCL flows of finished furniture from China and India.

06 **Rigging to the plinth**
Delivery coordinated with riggers and cranes at the factory site.

DEFENCE & GOVERNMENT

Military, defence & armored vehicles.

Military shipments do not move without the right approvals. We have handled defence cargo that required military and government approvals, and goods for armored vehicles, with the discipline and confidentiality they demand.

01 **Approvals first**
Permits, end-user documents and authority approvals secured before booking.

02 **Armored vehicle goods**
Vehicles, armor components and parts moved with controlled handling.

03 **Carrier acceptance**
Lines and airlines that accept the cargo, confirmed in writing.

04 **Confidential by default**
Restricted access to documents and shipment details.

RELIEF & NGO CARGO

Relief cargo, when it matters most.

We have handled shipments for UNICEF and UNESCO, and relief goods for communities in need. In humanitarian work, speed and accuracy are not a service level, they are the point.

01 **UN agency shipments**
Documentation and handling aligned to agency requirements.

02 **Relief goods**
Food, shelter, medical and education supplies moved urgently.

03 **Sea and air options**
The fastest workable route chosen, not just the cheapest.

04 **Hard to reach destinations**
Partner agents on the ground for final delivery.

> Every voyage matters. Some matter more than others.

5	1,750+	Local
continents served	destinations via partners	agents for final delivery

DANGEROUS GOODS

Dangerous goods, handled correctly.

From perfumes to highly flammable gases, dangerous goods need the right classification, packing, paperwork and carrier approval before anything moves. With DG acceptance tighter than ever on Gulf routes, that check comes first.

01 **Perfumes & fragrances**
Flammable liquids declared and packed to IMDG and IATA rules.

02 **Highly flammable gases**
Gas cylinders and ISO tanks with carrier DG acceptance.

03 **Paints, aerosols & chemicals**
Mixed class loads checked for segregation before stuffing.

04 **Documents that pass**
MSDS review, DG declarations and labels checked twice.

05 **Sea, air & courier**
The right mode for the class, quantity and urgency.

06 **Port & free zone rules**
Storage and direct delivery restrictions planned in advance.

CLASS 2 · GASES | CLASS 3 · FLAMMABLE LIQUIDS | CLASS 8 · CORROSIVES | CLASS 9 · MISC | ISO TANKS | CYLINDERS

VEHICLES

Ro-Ro by sea, and by air.

Cars, trucks, heavy equipment and specialist vehicles, shipped Ro-Ro, in containers or by air when time matters. From fleet exports to single high value cars moved under carnet, every unit is inspected, documented and secured.

- RO-RO
- CONTAINERISED CARS
- AIR FREIGHT VEHICLES
- CARNET DE PASSAGE

YACHT & MARINE

Yachts, vessels & marine spares.

We support yacht builders, owners and marine operators with yacht transport, urgent spares and chemicals delivered to vessels in port, and ship's spares moving in and out of the UAE.

- YACHT SHIPPING
- SHIP SPARES
- URGENT TO VESSEL
- MARINE DG

Sea · Air

Ro-Ro, container or air freight for vehicles

Carnet

Temporary export and re-import paperwork handled

To vessel

Urgent spares and chemicals delivered to yachts in port

TRACK RECORD

If it can be shipped, we have probably moved it.

Exhibition goods

ONE PARTNER

Services, end to end.

01	**Ocean freight**	FCL, LCL, open top, flat rack and breakbulk, with direct, east coast and transhipment options compared.
02	**Air & sea-air**	General, urgent, DG and oversized air cargo through DXB and DWC, including vehicles.
03	**Customs clearance**	Mainland, free zone and transit clearance, documentation and HS guidance.
04	**Road & rail**	Container, flatbed and low bed delivery across the UAE and GCC, bonded moves from the east coast.
05	**3PL & supply chain**	55,000 sq ft in DIP: warehousing, picking, packing, value added services and distribution.
06	**Project & OOG cargo**	Heavy lifts, route planning, permits, lashing and site coordination.
07	**Specialist cargo**	DG, defence, humanitarian, vehicles, yachts and marine.

HOW WE WORK

01
Enquiry
Supplier location, cargo, volume and incoterm.

02
Options
Routes compared on cost, transit and risk.

03
Quotation
Written all-in rate with clear validity.

04
Delivery
Clearance and delivery, updates at every milestone.
